Sulphur Spring

Valley Notes

Late last week, at Courtland, when Morris Catlin took his coat from behind the door, he thought that it seemed heavy, but noting nothing wrong, he started to put it on when he discovered something moving in it, which proved to be an adder snake, which had in some manner got into the coat, between the lining and the outside.

Wesley Lane, 8 year old son of the McNeel postmaster, was thrown from a burro, Wednesday, onto a hay rake in such a manner that a gash was cut in his head necessitating the taking of four stitches to draw it together.

Messrs. Hall and Shearer have in over 100 acres in varied crops, mostly beans, corn and milo-mare. Three acres of corn now have fine roasting ears and one acre that has melons, tomatoes, cucumbers, potatoes, pean-ut-wend squash, is making a good showing.

Mrs. DeMonte, of Kootenai, Idaho, arrived in Courtland Wednesday, expecting to locate in the valley.

The train to Douglas last week made quite a showing after picking up the ore at Kelton from the Southern Pacific which with the seven from Courtland, made a total of 51 cars.

Five members of the Courtland Good Roads Association spent Wednesday looking over the routes between Courtland and Gleeson and lines down the valley.

J. M. Montano of the Leadville Stables company was over to Tombstone Wednesday, and on his return brought in a new two-seated surry top buggy.

M. Watkins states that his brother-in-law, now in Ohio, is soon to be named among the valley residents. It is pleasing to the settlers to learn of more prospective locators of this class. Good lands with healthy surroundings, means wealth for the settler. —Arizonaan.

Board of Equalization

In Session at Phoenix

The territorial board of equalization are in session at Phoenix for the disposition of all classes of property except the railroads which were assessed upon at the June meeting. The southern members of the board, H. M. Morgan of Cochise, Lee N. Stratton of Graham and Charles S. Black of Pima arrived at Phoenix Monday. The assessors of many of the counties will soon be on hand during the session of the board and with that purpose among those who arrived were, Assessors Merrill of Gila, Birdno of Graham and Dougherty of Santa Cruz.

Sells Horses to

E. P. & S. W. Contractors

A Tucson dispatch says— In two minutes this morning after he entered the office of MacArthur Brothers, contractors, A. S. Smith, a rancher living near Tucson had sold 50 head of draft horses to be used on the El Paso and Southwestern grade. Mr. Smith had been corresponding with a number of ranchers near Williams, and from that district the stock will be shipped to Tucson.

Delegates to Represent Cochise

The official call has been received by the board of supervisors for the Sixth International Dry Farming Congress, which will be held at Colorado Springs, Colorado, October 16-20. Four delegates will be appointed by the board to represent Cochise county at the congress. The object of the congress is to secure better land laws, and better system of agricultural education in the rural schools, etc. In its call the congress asks that the farmers of the county be encouraged to send dry-farming exhibits and products for the purpose of creating a spirit of competition among the farmers, the same resulting in bringing much publicity to the county and territory.

Cochise Pioneer Admitted to Home

Clerk H. E. Berner of the board of Supervisors this morning received advice from the secretary of the territorial board of control to the effect that the application of admission of Sam Stanton of Benson to the Arizona Pioneers' Home at Prescott had been approved and accepted by the board of control. Mr. Stanton has been a resident of Arizona and Cochise county for thirty-one years and a pioneer of Benson, having erected the second frame dwelling house in that city of which he has been a resident for many years. At the present time he is suffering from a dislocation of the hip, and has been compelled to use crutches for the past five months.

Refuse to Grant Tent Saloon Licenses

Steady refusal is being made by the board of Supervisors of Pima county to a stream of applicants for saloon licenses who wish to establish tent saloons along the right of way of the E. P. & S. W., moving their camp saloons along the route as the work progresses says the Citizen. The supervisors have given their decision that they will not under any circumstances grant licenses for such places. They are also unanimously against granting new saloon licenses in out of the way places like Silverbell. It is understood the supervisors of Cochise county will refuse applications also for tent saloons along the line of the E. P. & S. W. right of way.

A Wonderful Arizona Operation

At Phoenix at the Slater's hospital Dr. R. D. Wilson, assisted by Drs. Bell and Dysart, successfully performed an exceedingly delicate operation. The feat in surgery was performed upon William Whitehouse of Mesa, to remove from the frontal sinus cavity, which is a part of the skull formation just above the back of the eyes, a number of screw worms that had found lodgment there. To carry out this operation the patient's skull, right above the base of the nose, had to be chiseled out and thereby an entrance was formed leading into the frontal sinus. This cavity was thoroughly scraped with a spoon-shaped scalpel and a quantity of pus, together with three full grown screw worms, each an inch long were removed. There is a small channel that leads from the sinus cavity into the nose and this channel was flushed out with chloroform to kill any remaining worms that may have been lodged in this passage, and by this means two additional worms were ejected.

Corrals Stray Yellow Men

The Oasis says— Monday Joe Deegan of Calabazas corralled near the Clark ranch, about fifteen miles northwest from Nogales, three contraband Chinese. He took them into custody and marched them to Calabazas, notifying the immigration office by telephone. Inspector in charge Miliken and Inspector Rolfe took a livery team and went down after the celestials, bringing them into Nogales. Tuesday they were taken to Tucson for deportation.

From Wednesday's Daily

Edward Wilcox arrived in Tombstone this morning from his ranch near Hereford on a visit with his brother, Geo. B. Wilcox and family.

M. D. Seibner and wife returned last evening from a trip to Bisbee where they went on Monday afternoon.

Deputy Sheriff Allie Howe was a returning passenger last evening from Bisbee and Douglas.

Several days ago the back taxes of the T. C. M. Co. for the year 1910 were paid into the county treasury. The total amount turned over including the various penalties attached totaled \$5,932.96. The largest penalty was the court costs, \$1,232.59.

A carload of culverts to be used on the county roads was received in Tombstone today from the east and assigned to the board of supervisors. These culverts are made of sheet iron and warranted to outwear the old wooden ones.

Captain George B. Wilcox was an outgoing passenger this afternoon for Phoenix, where he goes to look after his business interests.

James Lawry, the well known rancher of the Barboursville in the city today on a brief business visit, having arrived on the noon train.

Cattle Inspector Porter McDonald was a returning passenger this morning from Hereford where he went on matters connected with his official position.

F. E. Jarvis, a knight of the grip traveling out of San Francisco, is a commercial visitor in Tombstone today.

Albert Gerny and Spiro Markachewich of Bisbee were in town today and declared their intentions of becoming United States citizens. They are both natives of Austria and came to this country from Germany.

George R. Asouover is a business visitor in the county capital today from Bisbee, where he is engaged in mining.

Mont. R. B. from the city today for a short time on business with the probate court from his home in Pearce.

Peter B. Martinez of Pirtleville was, numbered among the arriving passengers on the noon train and immediately repared to the probate court, where he secured a license to wed Miss Jennie Whitehead of Douglas.

Frank Clarkson, a resident of Nogales, is in the city for several days on mining business.

Cochise Tax Rate Budget

The annual expense budget for the coming year upon which the tax rate will be based for Cochise county by the board of supervisors at their next meeting is rapidly nearing completion, and Clerk Berner sets the conservative estimate for running the county government at about \$534,000. Of this amount \$13,000 will be necessary for county roads; \$150,000 for the public schools and about \$190,000 for both the general and salary funds. The estimated tax rate will be in the neighborhood of \$2.60. For the fiscal year ending July 1 it set the county a little more than \$3,000 to run the county board of health and conduct the poor farm and hospital at Douglas.

No Law to Stop Arizona Indian Forgers

There is no statute in which an Indian, a ward of Uncle Sam, can be punished for forging and passing worthless checks. The Indians in the valley, having once discovered the fact are putting it to good account, or rather to no good account, until the forging of checks has become a regular industry among the Pimas and Maricopas.

A few days ago the Pimas held a big celebration and some of the young bucks, graduates of the Phoenix Indian school, forged two checks totaling some \$60 and cashed them in Mesa without trouble.

PRESIDENT'S VETO IN CONGRESS

Washington, August 15, 3 p. m.—President Taft sent his veto of Flood statehood resolution to Congress at 12:12 p. m. today. The message scores recall and says that on account submitting recall proposition to Arizona voters, leaving them to repudiate which is doubtful they would do, he does not see how he can escape responsibility of standing for the future so returns bill with his disapproval.

An effort will be made to pass over veto but Senate thought very close. It is understood new bill will be introduced immediately, satisfactory to President to pass upon, before adjournment.

Washington, August 15, 3 p. m.—Senator Smith today introduced new statehood resolution after conference with President Taft, eliminating recall. A meeting of the Senate committee on territories was called for tomorrow morning. Same action is expected in the House and statehood bill will probably pass before adjournment August 22.

WASHINGTON, D. C., Aug 16—Senator William Alden Smith's resolution admitting Arizona and New Mexico is being considered by the senate committee on territories today. By the terms of this resolution the recall of the judiciary is eliminated from the Arizona constitution, and Senator Smith states that he had drafted the resolution after a conference with President Taft. Smith will make every effort to have his resolution reported back to the senate tonight or tomorrow and will endeavor to get it to a vote. The prospects are favorable for passage of bill and admission this week. The veto matter will come up in the house Friday.

Even if Arizona's statehood is delayed temporarily on account of President's veto the progressive and broad minded people of the territory are satisfied that we are receiving a lot of free advertising, which will bring more people and capital to develop our unsurpassed resources.

All right, now that the recall has been recalled, give us statehood.

Taft Certainly was ferninst the recall and called it all kinds of names.

"Water in stock is business ability and experience" says one financier. And so is gold brick.

The returning summer visitors to the coast points look tired and worn out, while those who stayed at home or spent a few weeks for a genuine rest at the majestic Arizona mountains are the pictures of good health.

If the prison reform keeps on gaining at the present rate we can look for graduating exercises at some of the penal institutions.

The varied resources of Cochise county afford ample opportunity for the miner, agriculturalist, artisan, laborer and capitalist to make a competence and fortune. The recent discovery of oil in this county opens still another field for prospecting and reaching out for the wealth at our doors.

Every indication points to a greater industrial activity in the district during the coming year than in the year past. The ore shipments to the smelters promises to be far greater and of course that means better financial and business conditions for Tombstone.

Tombstone district has received a temporary setback by reason of the financial troubles of the T. C. M. Co., but with reorganization and continuance of the work, an early redemption of the famed district is certain. One of the largest producing districts in the west is Tombstone's portion when energetic resumption of work is instituted.

When the Tombstone Consolidated Mines Co. emerges from the bankruptcy proceedings and a reorganization effected, the work of redeeming the district will follow. With an equipment, complete in every respect, the work of finishing the gigantic undertaking, and uncovering the treasures beneath the watery barrier is a near possibility. With millions expended to break the way, and as the coveted goal would appear to be within reach, to become involved in a big financial crash and witness the consumption of all hopes performed by other hands, is pitiful to contemplate. It is indeed a hard blow to the company stockholders and equally unfortunate for this district, but Tombstone will yet be vindicated and prove the leading producer of the west.
